

Tallgroup

Since its establishment in 1998, the Tallgroup has been active in the area of internal transport, pallet transport and handling and final packaging systems. Core activities are the design, delivery and maintenance of strapping machines, pallet wrapping machines, stretch hooding machines and the associated peripheral equipment and consumables. This makes the Tallgroup one of the most important suppliers in these areas. The Tallgroup holds stocks of machines, parts and consumables, which means that the majority of parts and materials can be rapidly supplied from its various warehouses. Service and maintenance

management are also core activities of the Tallgroup. Our service helpdesk is available 7 days a week, 24 hours a day. In recent years, the Tallgroup has built up an impressive customer base in a large proportion of western Europe. Its customers include Tata Steel, Philips, DSM, ArcelorMittal, Sara Lee, Ytong, Sabic, Borealis, Flextronics, Ardagh Metal Packaging, FrieslandCampina, Wienerberger Bricks, Kraft and InBev. The Tallgroup consists of Tallpack International established in Geldermalsen (the Netherlands), Tallpack Belgium established in Sint-Pieters-Leeuw (Belgium), Tallpack Bulgaria established

in Stara Zagora and Interpres Logistics established in Geldermalsen. These companies operate in sectors including: the building materials industry, the steel industry, the cardboard manufacturing industry, the graphical industry, the chemical and pharmaceutical industries, the food industry and in warehousing and distribution companies. The four operating companies each have their own market philosophy, but work extremely closely together in the technological and organisational areas. All of this is accomplished with a closely-knit, flexible and enthusiastic team of 42 employees.
